50X1

1. Messrs. Houston, Bannerman, [] and Paul met with Messrs. Schuldt and Hanna of the Bureau of the Budget on CIA problems in connection with atomic energy legislation. The Bureau examiners were very sympathetic with our problems relating to clearance procedures, access and exchange of information, and interchange of information with foreign governments. It was agreed that due to the time element we would not formally propose amendments to the Atomic Energy Act during this session. It was agreed, however, that we would explain our views on the access and exchange proposal which had been previously made by the Department of Defense and that we would place before the Bureau of the Budget this and related problems for future disposition.

50X1

Norman S. Paul
Legislative Counsel
